The new trial in the case of Sullivan vs. the The Putnam Insurance company was granted because the Court, after reflection, was satisfied that it had witheld an instruction that should have been given-and not, as we were informed, because the verdict was contrary to the evidence.

Just received at P. Neff's, No. 79, Ohio Levce, a splendid lot of spring Cassimeres, Coating and Vestings, which will be made up in the most fashionable styles, and at prices to suit the times, a perfect fit guaranteed or no sale. ..

THE many beautiful specimens of printing which we have sent out of our office of late give some idea of what we can do. Those who need any description of fine, or commercial printing, can be supplied with the best at low rates. We do printing so cheap now that bussiness men cannot afford to do without it.

Gumberts, who shot and killed Me-Sherry, on board the steamer Quickstep, about three or four weeks ago, near Uniontown, Kentucky, is now on trial in that village, for murder. The officers and a portion of the crew of the Quickstep, were detained by the sheriff, last Monday, as witnesses. As a consequence, the boat came to Cairo, managed by a force of ad interims, viz: a temporary captain, clerk, stewart, barkeeper and porter.

Measrs, Miller and Miller have just received an unusually large, well assorted and strictly fashionable supply of piece goods, to which they ask especial attention. The lot embraces the finest cloths tucky; and said road, if leased, shall be and esseminers ever brought to Cairo, and leased to and operated in the interest of the such a variety of styles that all tastes may be accommodated. Suits or garments Ohio river, terminating opposite said city from these goods are made to order in the best manner and latest style, and at figgres that will defy competition. For proof of this they only ask to be put on trial: At all events call around and see the new goods. fen2ötf.

LIFE INSURANCE.

Among the life insurance companies of the country, none has higher claims upon the confidence of the public than the Life Association of America. Look at the following statement of the business of the Association for the month of March:

REPORT OF SPECIAL COMMITTEE. To the Honorable Board of Alderman of the City

GENTLEMEN:-Your special committee to whom was referred the bill of W. B. Rockwell & Co., for paper furnished to the committee on manufactures, respectfully

beg leave to report.
That the endersement made upon that bill, by the committee on claims, setting forth that they believed the "debt contracted without authority and therefore illeged," is not sustained by the facts, inasmuch as the committee on manufactures was appointed in a legal manner by the Mayor of the City of Cairo, in accordance with an order of the City Council, and their acts are therefore as lawful as any other committee appointed by the Mayor Further-we find that the bill alluded

to is just and reasonable, inasmuch as the bill formerly ordered paid for printing did not include the cost of paper, and was a reasonable bill for printing alone. at the office of Bryan Shannessy, corner of Washington avenue and 12th street in the said City of Cairo, not more than a special election be held.

We therefore recommend the payment of the bill of W. B. Rockwell, which was referred to us, as it is

referred to us, as it is endorsed by the Mayor and the Chairman and Secretary of the Committee on Manufactories. Respectfully submitted,

JOHN W. M'KEE, Chm'n.

When a boy of sixteen, I was foreman of a fire company, (all boys of my age.) We had a small engine-similar in construction to the Little Arab, except that it had a gallery, and the pumps were all copper. It was built by John Loud, in the year 1698, and was the first tire engine Philadelphin over had. I think it had as much power as any of our small engines here. It had also a suction and a side sever to attach bose, so that we could use either the long pipe from the gallery or the hose. This may or may not be interesting to your readers, but I give it to you as an
